WPRC BOARD OF DIRECTORS – DEREK DONLEVY

Last met on April 7th, discussed returning to in-person. Seems the discussion is still geared toward fall. Looking to meet in-person in August for the Board of Directors meeting. Fall Park Tour for Region 4 coming up. Things are trending positive for the association and are ahead on revenue projections for membership and taking in sponsorship dollars that were not originally counted on in the budget. On April 19th, there was a meeting aside from the Board of Directors meeting that included the Executive Committee, the Professional Development Committee, and the Communications Committee, and a representative from each section to discuss a policy regarding non-WPRC promotional materials and information. The policy that came from that was that we will always share information from the Foundation, NRPA, and IPRA webinars. Other materials that would be given strong consideration is anything that entails certifications or inspections.
